TAKE-HOME TASK / FINE-TUNING STUDY

Valorant Game-Talk

Qwen3-4B adapter | Evaluation report | Public Hugging Face release

65	8/12	4m 23s
TRAINING EXAMPLES	STRICT TERM HITS	T4 TRAINING TIME
49 everyday + 16 term explainers	Adapter on held-out questions	102 optimizer steps

Executive summary

The adapter learned to use the selected Valorant vocabulary more consistently while producing concise answers. On 12 newly worded questions, it matched at least one exact term from the fixed list in 8/12 answers, compared with 0/12 for the plain base and 0/12 for the prompted base. The prompted baseline did use other game references, so the exact-match metric understates its broader game language. The adapter's practical advice was mostly sound, but some analogies were awkward and it did not demonstrate a clear correctness gain over prompting alone.

Model and training approach

Base model	Qwen/Qwen3-4B; adapter-only release
Method	4-bit NF4 QLoRA; LoRA rank 16, alpha 32, dropout 0.05; all linear layers
Trainable weights	33,030,144 of 4,055,498,240 (0.8145%)
Training	65 examples; 6 epochs; 102 optimizer steps; mean training loss 1.445
Hardware and time	Tesla T4; 263 seconds (4 minutes 23 seconds). No dollar cost was recorded.

Training examples used a conversational system instruction requiring two concise sentences and one relevant game comparison. The style prompt was held constant between the prompted-base and adapter conditions.

Evaluation and findings

The same Qwen3-4B base, 4-bit loading, greedy decoding, 110-token output cap, and repetition penalty were used. The three conditions were: base with no style instruction; base with the training style instruction; and adapter with that same instruction. The 12 prompts were selected separately from the training rows. Full saved generations appear in the appendix.

Condition	Answers with exact listed term	Interpretation
Base model	0/12	No match from the fixed 19-term list.
Base + style prompt	0/12	Used other game references the list did not count.
Adapter + same prompt	8/12	More exact target vocabulary; fit varies.

Metric caveat: the exact-match check used a fixed 19-term list (including comms, callout, loadout, practice range, and round objective). The prompted baseline used unlisted references such as agent abilities, replay, smokescreen, and sniper. Its 0/12 is therefore a whitelist result, not a finding that it used no game language.

Helpfulness, correctness, and style

What worked	What needs work
A single-pass qualitative review judged 9/12 adapter answers actionable and broadly sound; a pass meant practical advice with no obvious factual or safety issue. Stronger examples included a clear callout for declining an invitation, a loadout comparison for outage preparation, and comms for meeting follow-up.	Three answers were flagged for revision: the power-outage wording about charging medical supplies, the suggestion to practice car controls at home, and the vague advice for a long wait. Some game tie-ins also felt forced, including practice-range maps for keyboard shortcuts and range rotations for a hobby.

Conclusion and next steps

Fine-tuning improved exact use of the chosen vocabulary and answer brevity relative to the plain base. The comparison does not establish a correctness improvement over the prompted base, and naturalness remains uneven. The evaluation is small, uses one reviewer, and its term whitelist misses valid references. A stronger follow-up would use a larger held-out set, a broader rubric fixed before generation, and independent ratings for usefulness, correctness, and naturalness.

Public adapter: https://huggingface.co/AkshaySuhag/valorant-qwen3-4b-game-talk
Base model: https://huggingface.co/Qwen/Qwen3-4B (Apache-2.0 listed on the model card).

APPENDIX / VERBATIM MODEL OUTPUTS

Full answer comparisons

Each question shows the base model, the prompted base, and the fine-tuned adapter. Wording is taken from the saved evaluation JSON; Markdown decoration is removed for readability. All generations were capped at 110 new tokens; verbose base replies sometimes stop mid-list or mid-thought. Those cutoffs are preserved as generated.

Q01 | How can I politely decline an invitation when I need an evening to rest?

BASE	Declining an invitation politely while explaining that you need an evening to rest can be done in a respectful and considerate way. Here's a sample response you can use, along with some tips on how to phrase it: Sample Response: "Thank you so much for inviting me. I really appreciate the opportunity to join you, but I'm going to need an evening to rest and recharge. I hope you understand, and I'd be happy to catch up another time if that works for you." Tips for Polite Declination
PROMPTED BASE	Let the person know you'll need time to rest and appreciate their invitation. Just as a player might call a "no" in a game, you can say "no" politely and clearly.
ADAPTER	State your intention clearly, explain your plans briefly, and offer help if needed. Use a callout: “I'll need time to rest this evening, so I can't join.”

Q02 | What should I do if an online order arrives damaged?

BASE	If an online order arrives damaged, here's a step-by-step guide on what you should do: 1. Check the Damage Immediately - As soon as you receive the package, inspect it carefully. - If the item is broken, missing, or in poor condition, do not open the box unless necessary (e.g., for safety reasons). 2. Take Photos or Videos - Document the damage by taking clear photos or videos of the damaged item and the packaging. - Include a photo of the outer packaging
PROMPTED BASE	Contact the seller immediately to report the issue and request a replacement or refund. Just as a team in Valorant would communicate clearly under pressure, address the problem swiftly and professionally.
ADAPTER	Keep the packaging, note the damage, and contact the seller with a clear description and photo. Share this information through a clear comms channel so they can respond promptly.

Q03 | How can I prepare my home for a short power outage?

BASE	Preparing your home for a short power outage (such as a few hours or a day) is important to ensure safety, comfort, and continuity of essential services. Here's how you can prepare: 1. Emergency Kit for Short Outages Even a short power outage can disrupt your daily life. Keep the following items in an easily accessible location: - Flashlights (with fresh batteries) - Battery-powered or hand-crank radio (for weather updates) - First aid kit - Whistle
PROMPTED BASE	Keep essential electronics plugged into a surge protector and unplug non-essential devices. A surge protector acts like a shield, protecting your gadgets from voltage spikes during outages.
ADAPTER	Keep essential lights, phones, and medical supplies on a battery-powered charger, and keep a flashlight and batteries nearby. Treat it like a useful loadout: know what you need to stay safe and prepared.

Q04 | What is a good way to learn keyboard shortcuts?

BASE	Learning keyboard shortcuts can significantly boost your productivity, especially when working with software, browsers, or development tools. Here's a structured and effective way to learn and master keyboard shortcuts: 1. Start with the Basics Before diving into complex shortcuts, familiarize yourself with the basic functions of your operating system and primary applications. For Windows: - Alt + Tab: Switch between open programs. - Ctrl + Alt + Del: Open the Task Manager. - Win + D: Show desktop. - Win
PROMPTED BASE	Practice regularly by typing short phrases and using the shortcuts in different contexts. Think of shortcuts as "agent abilities" in Valorant-master them through repetition and application.
ADAPTER	Repeat the useful ones on practice range maps before playing competitive matches. Treat each shortcut like a useful ability: learn it once, then use it consistently.

Q05 | How can I make a team meeting more productive?

BASE	Making a team meeting more productive involves a combination of preparation, structure, and engagement. Here's a step-by-step guide to help you run a more effective team meeting: 1. Set a Clear Purpose - Define the objective: What is the main goal of the meeting? (e.g., decision-making, problem-solving, updates, brainstorming) - Ask: Why are we meeting? Make sure everyone knows the purpose. 2. Choose the Right Time and Place - Schedule at a convenient time
PROMPTED BASE	Set clear goals and encourage active participation. Just as in Valorant, a well-defined objective ensures all players contribute effectively to the team's success.
ADAPTER	Set a clear agenda, start on time, and give each speaker a short turn to keep the discussion focused. Use comms efficiently by sharing what is decided and who will follow up after the call.

Q06 | How should I keep backup copies of important digital documents?

BASE	Keeping backup copies of important digital documents is essential for data protection, disaster recovery, and business continuity. Here's a comprehensive guide on how to effectively back up your important digital documents: 1. Understand What Needs Backing Up Before you start, identify which documents are most important to you or your organization. Examples of Important Documents: - Personal identification (ID, passport, driver’s license) - Financial records (bank statements, tax returns, credit reports) - Legal documents (contracts, wills, deeds) - Business records (
PROMPTED BASE	Use cloud storage services like Google Drive or Dropbox and enable version control. Imagine your documents as a "replay" in Valorant-each backup is a save state that lets you restore your work after a mistake.
ADAPTER	Use a secure cloud storage service and store each copy on a separate device. Treat backups like a team comms plan: know where each copy is and who can access it.

Q07 | What are some practical ways to reduce food waste?

BASE	Reducing food waste is an important step toward sustainability, saving money, and minimizing environmental impact. Here are some practical ways to reduce food waste: 1. Plan Your Meals - Make a grocery list based on what you already have and what you'll need for the week. - Buy in bulk for non-perishable items, but use them before they expire. - Use up leftovers creatively (e.g., turn leftover vegetables into soup or stir-fry). 2. Shop Mindfully
PROMPTED BASE	Plan meals ahead and use leftovers creatively. Just as a Valorant player uses a smokescreen to obscure movement, you can "smoke" food waste by repurposing scraps into new dishes.
ADAPTER	Check your grocery list before shopping, store leftovers in airtight containers, and use soon-to-expire items first. Keep your rotation clean by rotating out what you've used so fresh stock comes in before it spoils.

Q08 | What should I do if I accidentally schedule two appointments at the same time?

BASE	If you accidentally schedule two appointments at the same time, here's what you should do: 1. Check the Appointments - Review your calendar to confirm that both appointments are scheduled for the same time. - Make sure they are for different people or services (e.g., one with a doctor and one with a lawyer). 2. Cancel One Appointment - If the appointments are for the same person or service, cancel one of them. - If they are for different people, you may need to
PROMPTED BASE	Cancel one of the appointments immediately and reschedule it to a different time. Just like in Valorant, if you have two agents ready to fight at the same time, you need to prioritize and adjust your strategy.
ADAPTER	Check your calendar for the conflicting appointments and reschedule one to a different time. Communicate with the affected people as soon as possible so they know what to expect.

Q09 | How can I set boundaries when a coworker messages me after work?

BASE	Setting boundaries when a coworker messages you after work is important for maintaining your personal time, mental health, and professional focus. Here's how you can approach it: 1. Reflect on Your Needs Before setting boundaries, ask yourself: - How much time do I want to spend on work-related messages after hours? - Do I need time to unwind or focus on personal responsibilities? - Is this coworker being respectful of your time? 2. Communicate Clearly and Politely It's important to be direct but respectful
PROMPTED BASE	Respond politely but firmly, letting them know you're available only during work hours. Just as a player would prioritize focus in a lane, set clear limits to maintain productivity and mental space.
ADAPTER	Keep your calendar blocked for personal time, respond briefly if it's urgent, and let them know when you'll be available next. Use clear comms: tell them what you can help with and when.

Q10 | How should I prepare for my first driving lesson?

BASE	Preparing for your first driving lesson is an exciting but important step in learning to drive. Here's a step-by-step guide to help you get ready for your first driving lesson: 1. Get Your Learner's Permit (if required) - In many places, you need a learner's permit before you can start driving lessons. - Check with your local Department of Motor Vehicles (DMV) or licensing authority to see if you need one. - You may need to pass a written test and a road test to obtain it.
PROMPTED BASE	Get a good night's sleep, wear comfortable clothes, and familiarize yourself with the vehicle before the lesson. Just as a player should practice aiming in Valorant, you should review the basics of driving to feel confident and prepared.
ADAPTER	Check your vehicle's manual, review the basics of your license, and practice starting the engine and shifting gears at home. Treat the first lesson like practice range work: focus on the instructor's feedback before trying a full route.

Q11 | How can I stay patient during a long wait?

BASE	Staying patient during a long wait can be challenging, but with the right mindset and strategies, it's definitely possible. Here are some practical and effective ways to help you stay patient: 1. Use the Time Productively - Read a book or article - Even a short story or a news article can pass the time. - Do a puzzle or brain teaser - Crosswords, Sudoku, or even simple math problems can keep your mind engaged. - Practice mindfulness or meditation - This helps calm your mind
PROMPTED BASE	Take deep breaths and focus on a single task to distract your mind. Like a sniper in Valorant, patience is key to hitting the target without rushing.
ADAPTER	Choose what you can do next, then give yourself a few quiet breaths before the next thing happens. Think of it as managing your load: take time to prepare for the next round instead of getting overwhelmed.

Q12 | How can I make progress on a new hobby when I have little free time?

BASE	Starting a new hobby when you have limited free time can feel overwhelming, but it's absolutely possible with the right approach. Here's how you can make progress even with a tight schedule: 1. Start Small and Be Consistent - Set a daily or weekly goal: Even 15-30 minutes a day can make a difference. For example: - If it's painting: sketch for 15 minutes. - If it's reading: read one page a day. - Consistency is more
PROMPTED BASE	Prioritize quality over quantity by dedicating small, consistent chunks of time to your hobby. Think of your free time as a "practice run" in Valorant-short, focused bursts build skill more effectively than long, sporadic sessions.
ADAPTER	Choose a short, regular practice time and start with one small goal. Treat it like practicing range rotations: keep the habit consistent and build skill gradually.
